Ant Collage

1.

Draw a wavy line on the long side of a green sheet of paper to make grass.

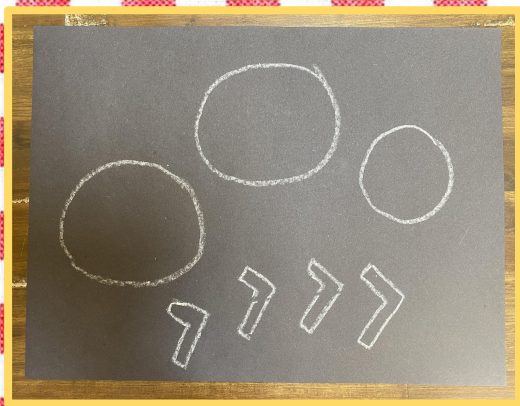

2.

Cut out the wavy grass and glue it to the bottom of a blue piece of paper.

3.

Draw 3 circles on a black piece of paper. Make one a bit smaller for the head. Also draw 4 "L" shapes for legs.

4.

Cut the shapes out and overlap to make an ant. Add details like eyes and antenna.

5.

Last, make some food for the ant to steal! Mine is stealing watermelon. What will you make?
