

# Egg Carton Owls

**1.**

Cut the top of the carton in half and two cups from the end of the bottom of the carton as shown.

**2.**

Cut “wings” from the sides of the top half (body) as shown

**3.**

Add details! I repeated scalloped lines to look like feathers.

## 4.

If you have markers, add color and details to the eyes and beak (the two cups from the bottom).

## 5.

Add glue to the bottom of the eyes, then place on the top of the body.

## 6.

Now you've got an owl! Add more details if you like. You can cut paper to make feathers, or just add more color with markers. Have fun!
