

Hand Print Flower Pot

Art with
Ms. Hedges

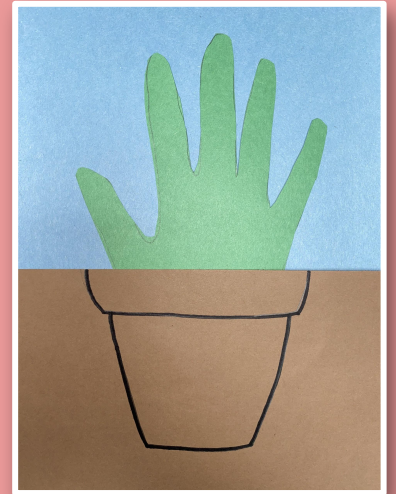

1.

Start by tracing your hand (if you don't have green paper you can color it in).

2.

Cut out your hand and line up a piece of paper to draw a flower pot.

3.

First, glue the hand down in the middle of the paper, then glue the cut-out pot. Overlap your hand a little bit.

4.

Cut some tissue paper squares (about 2x2 inches)

5.

Put a dot of glue on a tissue square, then place a second on top at an angle. Let them dry.

6.

Place a pencil in the middle of the tissue squares, then scrunch the tissue up around the pencil.

7.

Put a dot of glue on the tip of a finger/stem.

8.

Press and hold the tissue paper with the pencil for a few seconds, then carefully remove the pencil.

9.

Repeat for all the fingers and then you're done!
